

What is reading for pleasure?

At its core is the reader's volition, their agency and desire to make meaning in anticipation of the satisfaction gained through the experience and interaction around it.

It is or can be transformational...

(Cremin et al., 2014:5)

Reading for pleasure can:

- Involve any kind of text
- Take place anywhere
- Be both solitary and social and interactive.

**Reading by choice –
children choose to read themselves!!!**
